Vol. 4, No. 14

EDMONTON, ALBERTA, FRIDAY, APRIL 4, 1952

## SCHOOL HAS OFFICIAL OPENING CEREMONIES HELD ON MARCH 26

BEISEKER — Officials of the Department of Education participated in ceremonies connected with the official opening of the new school here Wednesday night, March 16, when despite impassable roads, about 200 persons attended. The ceremonies, sponsored by the H. and S.A., were under the chairmanship of Mr. F. H. Wright, president of the association.

L. L. Schmaltz, mayor of Beiseker, and V. Schmaltz, chairman of the local school board, gave addresses of welcome, congratulating the school board on its achievements.

The pupils of Miss Harris' room sang two choruses, Beatrice Brosteaux and Jerry Schmaltz taking the leading parts in "Schooldays."

J. H. Schmaltz, divisional trustee, whose wise planning and execution made this school possible, spoke on behalf of the division.

T. H. Murray, vice-principal of the school, speaking for F. Plante, who unfortunately is ill, expressed the teachers' and pupils' appreciation of the fine edifice. He advised propaganda for added classrooms. Father Tennant, parish priest, gave the teachers a boost and emphasized the importance of the home as the first school.

Munroe Macleod, superintendent of the Wheatland School Division, beamed with satisfaction as he congratulated the people of Beiseker on their venture. He stated that the best time to build schools is when they are needed.

Rev. Karpoff, minister of the United Church, placed a very high standard on a teacher. He quoted Nicodemus, "We know that thou art a teacher come from God."

Mrs. Allan Berreth sang the prayer of dedication, "Bless This House," and the "Lord's Prayer."

W. E. Frame, chief superintendent of Alberta schools, representing the Department of Education, spoke on trends of education to meet the problems of handicapped children, to raise the school-leaving age to 16, and to encourage university attendance by means of bursaries. Mr. Frame then cut the ribbon across the stage, marking the official opening.

As a gift from the Department of Education, he presented the school

## Holidays In States, Mexico

LEVEL LAND—Miss Erma Schaber of this district returned a few weeks ago, from a holiday in the United States. Erma states she had a good holiday.

She left on December 10 by bus for Salem, Oregon. After a few days with her brother, Walter, and his wife, they left for California. There they met many former people of this district; Ben Wagner, a brother of Mrs. Walter Schaber, Dan Tetz, and Henry Gross. At Stockton they stayed with their aunt and uncle, the Bill Smiths. Mrs. Smith is better known here as Salam Schaber, at one time of this district.

The next stop was Bakersfield. It was interesting to see Boulder Dam, or the Hoover Dam. They also went through Arizona, and found real good dates on the trees. From there they went into Mexico, where they spent a few days. Took in horse races and also the bullring.

About fourteen days were spent in Los Angeles. The next stop of interest was San Francisco. From there they went back to Oregon. They also visited at Abe and Ed Schaber, formerly of this district.

## NOTICE TO REPORTERS

Due to the holiday or Good Friday, it will be necessary to print your paper one day earlier than usual. It will be greatly appreciated if you could arrange to have your copy in early in order to comply with this new time. This applies to Easter week ONLY.

with a beautiful tinted picture of the provincial legislative buildings. Assisting artist during the program was Leighton Wright, at the piano.

## Beiseker and District Donate \$1,066.00, 958 Bushels Wheat

Beiseker and district have gone over the top in the 1952 Red Cross Society campaign for funds with \$1,066 in cash and 958 bushels of wheat pledged for delivery as soon as it can be threshed. Quota for the area was \$1,250.

In announcing the success today, campaign chairman Matt Schmaltz said, "I wish to thank, most sincerely, the citizens of Beiseker and district who have, once more, given generously to the society's annual campaign."

"The funds they have contributed will allow the society not only to carry on its peacetime programs, but also to continue to provide blood and blood products for Canada's armed forces and provide the necessities of life for wartime refugees."

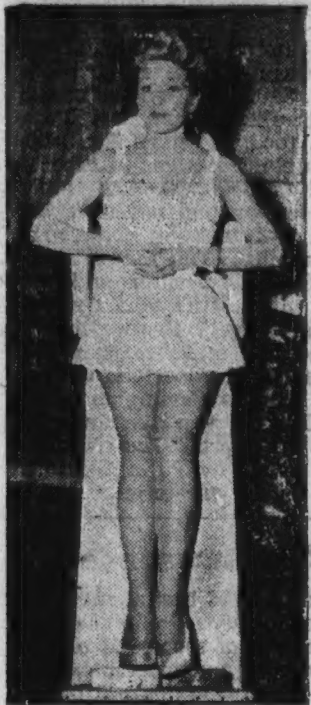

"These funds will also assist in the work of the new Alberta Red Cross Crippled Children's Hospital, where children from all over the province, whose parents cannot afford the prolonged treatment, are given medical attention for orthopaedic disabilities."

The provincial Red Cross quota this year is \$400,000; although the Canadian Red Cross is budgeting to spend \$600,000 in the province in 1952.

The campaign committee has still a few citizens to canvass in Beiseker, but will try to see all in a few days so all will have an opportunity to help in this Red Cross drive.

## "THE MISER" PRESENTED BY C.Y.O. PLAYERS IS A SUCCESS

BEISEKER — An adaption of Moliere's famous comedy in three acts was presented by the Drama Group of the C.Y.O. of St. Mary's Parish, Beiseker, to large and appreciative audiences on both Thursday and Friday nights in the Memorial Hall.

Tony Hagel, in the difficult role of the miserly and stingy Harpagon, gave an excellent performance, impressing all with his versatility and sincerity. Louise Schmaltz, Victoria Hagel, Anton Mayer and James Hagel were very pleasing and gained the sympathy of the audience as the harassed young lovers. Those portraying the parts of the suffering servants in the Miser's household left but little to be desired in giving realistic impressions. Lena Schwengler, Tillie Sander and Dolores Silbernagel were the female domestics, while both Vera Schwartzberger and Margaret Albert carried away with great success the added difficulty of the male roles they assumed. Donald and Daniel Schmaltz made very fine additions to the cast as a money-lender's agent and the long-lost aristocratic father. Special mention must be made of the veteran of many appearances on the stage of Val Schmaltz, as the willing but bewildered magistrate, who almost solved the mystery of the missing cash box.

On the whole, it was a very good performance given by the troupe, some of whom experienced their first taste of being on the other side of the theatre lights. The new stage arrangements and lighting were the subject of many complimentary remarks by the patrons on both nights. Mrs. Grace Schmaltz and Miss Jennie Grande contributed more to the performance as make-up artist and pianist than possibly an audience might realize. The parish priest, Father Tennant, was the director. And "Ike" Ternes was the accomplished sculptor of the statue of the lady with the pot on her head.

As the performance was put on for the benefit of the Memorial Hall, a hundred dollars or more will be made available for the use of the hall committee.

The C.Y.O. players wish to thank those who attended in spite of the bad roads, for it is a really good and appreciative audience which makes such a venture a success.

## BEISEKER NEWS BRIEFS

Mr. L. Plante is a patient in a Calgary hospital.

Miss Bernice Selzer has completely recovered from her recent tonsil operation.

Miss Florence Hagel and Miss Pauline Schmaltz were week-end visitors at their homes in Beiseker.

Mr. George Schmaltz and friend were week-end visitors at the home of Mrs. Frances Schmaltz.

Mrs. Ronnie Selzer is spending a few weeks at home while her mother, Mrs. Pete Schmaltz, is a patient at the Holy Cross Hospital.

Mr. Leonard Schmaltz, son of Mr. and Mrs. J. H. Schmaltz, is at present stationed in Calgary and making runs on T.C.A. from Edmonton to Lethbridge. Leonard is employed as co-pilot for Trans-Canada Airlines.

The Zion United Church will hold a sale of home-cooking on Saturday, April 12, from 2 to 5 and 7 to 9, in the Brown Lumber Co. Hardware Store, Beiseker.

**Social Grade**  
Stranger—What is the standing of the Snedmore family in this town?

Native—Well, I should say they is sort of betwix and between. They ain't exactly nobody and yet they hain't really anybody.

### B.C. Cattle Embargo

The smallest-minded bit of inter-provincial politics is being played by the British Columbia Government with the Foot and Mouth Disease outbreak in Saskatchewan, as the excuse.

As far as the disease itself is concerned, there isn't any more trace of it in Alberta than there is in British Columbia. B.C. has no valid reason on this score for its embargo against Alberta cattle.

All they're trying to do is to maintain an artificially high market price for their own B.C. cattle. The embargo is a denial of our Canadian Federation. One retaliatory step we could make would be to ban importation of B.C. fish in order to boost the price of northern lakes fish, but this would be as small minded as the cattle embargo and would be no credit to Alberta.

The Alberta Government is right in insisting that the embargo should be ended and we feel certain a test case shipment of Southern Alberta cattle to B.C. will prove the illegality of the Coast Province's ruling.

To protect cattle raisers in the Peace River Block in their own Province, British Columbia is permitting shipments from Northern Alberta. If it's right to accept shipment of cattle from one part of the province—it is right and proper from any other part.

This idea of creating trade barriers between Canadian Provinces is, perhaps, more dangerous than the Cattle Disease which has been stamped out. What can we do with people who want to "balkanize" our free country?

### It Was the Best of Times

"It was the best of times, it was the worst of times, it was the age of wisdom, it was the age of foolishness, it was the epoch of belief, it was the epoch of incredulity, it was the season of light, it was the season of darkness, it was the spring of hope, it was the winter of despair."

Writing so many years ago, Charles Dickens might have had in mind this Year of Grace, 1952.

Certainly it is the best of times for never has man reached so high a peak of inventiveness, so lofty a pinnacle of compassion toward his suffering fellows; certainly it is the worst of times, for seldom in the world's story has fear so hovered over mankind, fear of war and total destruction because of man's invention of death-dealing instruments.

The twentieth century is an age of wisdom for man knows more about the environment in which his life is led, about the universe and indeed about the Providence that activates the universe than ever before; it is an age of foolishness because man, with all his knowledge has not learned how to live in peace with his fellows, has not learned how to put his knowledge to use to make this planet a place of plenty for all.

This is an epoch of belief . . . belief in dignity of the individual, belief in goodness and freedom and love; it is an epoch of incredulity, too, for man has shown an indifference to the things of the spirit that is appalling, a neglect of worship, a materialism that threatens to overwhelm the good of this age of ours.

It is a season of light for man's aims are high—he is facing his responsibilities for his fellows and through the United Nations is making some attempt to create a world of justice and right; it is a season of darkness because man falls so far short of his aims and still makes so many blunders in his groping toward a better world.

It is the spring of hope . . . hope that all mankind may some day be free to live in peace and harmony and enlightenment; it is the winter of despair because it may be that man may destroy himself before he can achieve that good will which must exist in every corner of the world if God's promise to man is to be fulfilled.

### The Bible Today:

How beautiful upon the mountains are the feet of him that bringeth good tidings; that publisheth peace; that bringeth good tidings of good; that publisheth salvation.—Isaiah, III, 7.

### \$400,000 For Mercy

The Red Cross is a society that is built on the premise that human beings, however capable they may be, will reach a time when they need an extra lift. And that extra lift is provided by the Red Cross.

We all know the Red Cross; its work, its history and its character. We know that it gives its help ignoring all man-made boundaries of race, religion, and creed. If a human needs help, the Red Cross will give it to him; therefore the Canadian way of life, as we know it, is unimaginable without the humanitarianism that is typified by the red Maltese cross on a white background.

Now we'll lay our cards directly on the table. The Red Cross needs money. It needs a lot of money. . . \$400,000 from the people of Alberta. That's a large sum, but it's a sound investment, too. In return for \$400,000, the Red Cross plans to spend in Alberta this year, a total of \$600,000. That's big interest on your money; and not only big interest, for when you invest in Red Cross, you invest in humanity. You follow along the path of the Good Samaritan, and you follow the advice of St. Paul who covered the subject of charity very thoroughly.

No organization is stronger than the people in it and as loyal Albertans we believe we've a lot that is missing in other areas. The Red Cross is you . . . and you are the Red Cross in Alberta. Give as much as you can to the Red Cross during its 1952 campaign. You'll be the one to gain.

### Taxes Are Insurance

Most of us enjoy a good beef about taxes and goodness knows there are enough of them to provide plenty of scope. If all the taxes, federal, provincial and municipal, were laid end to end . . . well, you figure it out.

In discussing taxes we refer to them as nuisances, as contributing to the staggering cost of living today, as plain robbery or even in terms scarcely printable.

Yet seldom if ever do we refer to them as insurance. We might, for they represent insurance against war in our own land, against unemployment and poverty stricken old age, against crime and the growth of unpleasant ideologies.

Rumor has it that there may be a bit of tax sunshine ahead for Canadians in the tax sky, comes the next budget.

### The Revised Bible

Bible scholars have completed the revised version of the Bible, the third authorized revision in 341 years. In 1929 the International Council of Religious Education authorized the revision. Work was begun in 1937 and the New Testament was completed in 1945. Now the Old Testament has also been completed.

Thirty-two scholars from all the major denominations have applied themselves to the task of putting the Bible in simple modern language so that the average person who is not familiar with seventeenth century English can easily understand what he reads.

Here is a typical change from Isaiah's fortieth chapter. The King James version published in 1611 says, "The workman melteth a graven image, and the goldsmith spreadeth it over with gold, and casteth silver chains."

The revised version reads, "The idol: A workman casts it, and a goldsmith overlays it with gold, and casts for it silver chains."

While many of us feel that the new version cannot replace the King James version, we also feel that the new version is needed and that no home should be without it. Children will have no difficulty understanding the stories of Moses, Isaiah, and Jeremiah in the new version, while it was very difficult for them to follow the strange language of 1611.

### Note and Comment

Apparently Edmonton housewives prefer their baby-sitters to be young 'uns. We wonder how old is the baby in the household requiring a 2-year-old sitter: "Wanted—Baby-sitter 2 years old, Box 688 Journal."

### "STANDING FAST"

AS A DEFINITE indication of Churchill's avowed intention of "not preying over the dismemberment" of Her Majesty's Empire, John Bull is standing fast at Suez to safeguard the "life-line of the Empire."

### Voice of the People

#### SOCIALISM

A. J. W. Scott, Mannville, disagrees with Lewis Milligan, who is in favor of private enterprise, while Mr. Scott feels that private enterprise is dead.

Mr. Scott feels that co-operatives are only refunding an overcharge when they pay profits to those who own shares in them. I suppose, then, that Mr. Scott would feel that private corporations are doing the same thing when they pay dividends to their shareholders.

The trouble is that, as Mr. Scott himself admits, co-operatives do not operate in a co-operative society, but in a capitalist one. That is, co-operatives have the advantage of the use of all the railways, the banks, the factories and the rest of the great equipment with which the capitalist system has endowed this country.

Imagine what sort of a chance a co-operative would have today, if it could not use these capitalist undertakings. In fact, the real difference between co-operatives and private business is that co-operatives do not have to pay their full share of the taxation required to keep up the public services which are available to co-operatives as well as to private business.

Mr. Scott feels it is wrong to describe the late British government as a Socialist one, or to say that this government did anything except improve conditions in Britain. He justly points out that much of what has gone wrong in Britain has been produced by policies which were in effect before the Socialists got into power. It is very difficult to avoid the conclusion that British governments have, for a long time, been adopting Socialist plans, which only produced their full result when a Socialist government got into power.

Finally, Mr. Scott wants us to understand that we must give up more freedom in order to preserve freedom. Naturally, everyone in a community has to give up some of his freedom in order to keep the community functioning; but it is a little difficult to see how giving up any more freedom can

do anything except destroy that freedom.

Surely, when a government goes beyond those things which only public authorities can do, and beyond the enforcement of those laws which are necessary to keep society functioning smoothly, the government is going to find itself going straight ahead to enslaving the people.

If Mr. Scott really wants to know why the Socialist government in Britain made such a great failure, it was because it was afraid to go on with its task of socializing the nation and destroying the freedom of the individual. The British government fell because it would not face the necessity of making people work where the government clerks thought they should work, and forcing them to take the wages which government clerks thought they should receive.

Socialism is only possible when it is allowed to go to its logical end—which is to reduce the community to that condition of social security and paternal supervision which used to prevail on slave plantations, and is now only to be found in Russia.

WELL DONE WITH.  
Calgary, Alta.

#### PURPOSE OF FUA

An article in the "Organized Farmer" says about the FUA:

This is a farmers' organization formed and run by farmers to protect and advance their interests. Our objective is Parity for Agriculture. The FUA has no other purpose than this, and it must not be diverted from that purpose by people with an axe to grind, or by the "Red Herring" which our enemies are so willing to drag across the trail.

What happens to the democratic principles of free speech, freedom of the press, freedom of criticism, so evident at the first merger convention? The less than 5,000 membership is due to the lack of democratic leadership in this farm organization. Where do we go from here?

## THE LIGHTER SIDE

### Tough Luck

When Smith walked into his friend's office, he found him sitting at his desk, looking very depressed.

"Hullo, old man," said Smith. "What's up?"

"Oh, just my wife," replied the other, sadly. She's engaged a new secretary for me."

"Well, there's nothing wrong about that. Is she a blonde or a brunette?"

"He's bald."

### Irony

In a crowded theatre a young woman brushed past a man about to take a seat. Before he recovered his balance the young woman and her husband had taken the only two seats available in that part of the movie house.

"Sorry," said the husband; "we just beat you."

"That's O.K.," said the man who has been pushed out. "I hope you and your mother enjoy the show."

## Professor Says Grammar Rules Now Outdated

CALGARY—(BUP) — A university professor said here that school children should be taught modern English including colloquialisms which usage had made accepted.

Dr. H. S. Baker, education professor at the University of Alberta in Edmonton, said there was no use in teaching children "a lot of out-dated grammatical rules."

Baker said absurdities crept in if teachers were too strict in observance of old, traditional rules of grammar.

As an example, he said it was now perfectly correct to say, "It is me." He said it sounded a little over-precise to say, "It is I."

### Ohio Pooh-Bah

DEGRAFF, Ohio—Virgil Farr won't lack for variety in his new job. The village council of this western Ohio community has hired him at a salary of \$3,000 a year to be: 1, police chief; 2, water superintendent; 3, street cleaner; 4, fire department janitor, and 5, city hall cleanup man.

### Colorful

Reporter: "What shall I say about the two peroxide blondes who had the fight at the baseball game last night?"

Editor: "Why just say the bleachers went wild."

### Way to a Short Life

Lung Specialist—"A man who sings at the top of his voice for an hour a day won't be troubled by chest complaints in his old age."

Pre-Med—"He probably won't even be troubled by old age."

### The Brute

Henpeck, in a sorely battered state, was being cross-examined by a bullying counsel.

"Do you mean to tell me that you have always treated your wife with respect?" asked counsel.

"Always," replied Henpeck, firmly.

"And you've never once spoken a hasty word to her?"

Henpeck hesitated for a moment and the lawyer was quick to seize the opportunity. He roared, "I want the truth!"

"Well," faltered Henpeck at last, "I remember I did once say to her, 'Put down that poker!'"

DR. F. J. GREANEY, Director, Line Elevators Farm Service, Winnipeg, Manitoba.

### Watch That Damp Grain

The next few months will be a critical time for grain that went into storage last Fall with a dangerously high moisture content. Maintaining a close check now on both the moisture content and the temperature of damp grain in storage will help to avoid heavy losses from heating and spoilage this Spring.

Molds Cause Spoilage. Molds are at the root of all heating and spoilage problems in stored damp grain. The only effective spoilage control now known is to keep all portions of the bulk grain as dry as possible so that no molds can grow.

Important Facts. The rate of spoilage in stored grain depends largely upon the moisture content and the temperature within the grain bulk itself—not upon the outside temperature. Grain storage experts have found that grain containing 16 to 18 percent moisture can be kept in good condition for months at a temperature of 40 to 60 degrees Fahrenheit. But if grain of this moisture content is kept at 70°F. it will become "musty" in a couple of weeks, and totally spoiled within a month. These facts suggest the value of having damp grain stored in bins on the North side of a granary or elevator, where the temperature within the grain bulk itself is likely to remain at a reasonably safe level for a considerable time this Spring.

Moisture Accumulates. During the winter months, the moisture in grain stored at a high moisture content becomes unevenly distributed within the bulk of grain. For example, moisture usually accumulates in those portions of the grain near the cool outer walls of bins and near the tops of bins. When the grain warms up this Spring these portions will be the first to begin molding, heating and spoiling.

Damp grain can only be stopped temporarily from heating by turning it from one bin to another. For reasonably safe protection the moisture content of the grain should be reduced to dry grade. When this is impossible, damp grain should be marketed or used before warm weather occurs. Watch that damp grain closely now. Waiting until the grain shows signs of heating may be too late to prevent serious deterioration.

## \$1 for BRIGHT SAYINGS

The Editor will pay \$1.00 for each child's saying printed. To qualify, items must be true, personal remarks of a child known to the writer. Address: "Bright Sayings", P.O. Box 4868, South Edmonton.

My little girl aged four had been looking at a picture of a dead person in a coffin, then asked, "What's that Mama?" "It's a dead man in a coffin," I replied. "Well how can he be coughing if he's dead?" she said. Mrs. E. Sawyer.

Gainford, Alta.

My young son was having his hair clipped by his uncle, who was just learning to use the clippers. Feeling uncomfortable in the amateur-barber's chair he complained, "I don't like my hair cut with a binder." Mrs. M. C.

R.R.5, Edmonton.

My brother, in the first grade at school, heard the teacher give a talk on Indians. She said they usually travelled in a wagon with a low box and asked if anyone knew the reason for this. My brother spoke up and said, "So the little kids can see over the top." E. M.

Caslan, Alta.

Little daughter was looking with interest at the stars of the "Big Dipper" were being pointed out. She then asked: "And where is the water pail?"

Munson

# Beyond Compare... Anywhere!

Monarch Montery

it's **HERE NOW**

the Breathtaking **1952 Monarch**

## NEW 125-HP. V-8 ENGINE

New high-compression design backed by Ford's experience in building more V-8 engines than all other makers combined.

**NEW**

*all through!*

It's the most exciting Monarch ever built... it's beautiful beyond compare with all-new styling and it's way up in power too! Proudly it looks its part... and paces its fine-car field... as the most distinctively new and different car to hit the Canadian road for '52! See this new Monarch for yourself. Then just drive it! You'll—

*Ride like a King!*

**DIFFERENT**

*every way!*

No need to look and look again to see the difference in this new car! Take just one glance at that stunning new hood and grille—at that huge, one-piece curved windshield—at the new rear-end treatment. Here's advanced design... here's new luxury and room inside as well. Now you can command the most powerful Monarch V-8 Engine ever built and—

*Ride like a King!*

**BEAUTIFUL**

*beyond compare!*

It's a beauty to look at, a beauty to drive, with its choice of three great drives... famous Monarch Automatic Transmission or Overdrive (optional at extra cost) or silky-smooth conventional transmission as standard equipment. Whichever you choose, in this 1952 Monarch you'll thrill to a ride beyond compare as you—

*Ride like a King!*

White sidewall tires, full disc hub caps, rocker panel moldings, bumper-grille guards and fender skirts optional at extra cost when available.

RED CROSS CHILDREN'S HOSPITAL  
HAD LARGE NUMBER OF PATIENTS

The year's work at Alberta's Red Cross Crippled Children's hospital was outlined to delegates from all over the province, when the 37th annual meeting of Alberta Division, Canadian Red Cross Society, was held in Edmonton's Alberta College February 21 and 22. All work at the hospital was increased with 177 patients treated in 1951 as compared to 152 in 1950. Seven hundred and nineteen outpatients reported during 1951 as compared to 582 in 1950, with 2,270 visits made.

During the previous year there were 21,269 hospital days recorded compared with 20,411 the previous year.

The physiotherapists' report

talled 8,571 treatments for in-patients and 721 treatments for outpatients.

The brace shop at the hospital, which constructs all types of braces, and artificial limbs and rebuilds shoes to fit crippled feet made, altered or repaired 1100 orthopedic appliances.

Ninety nine patient-students attended school during the year with grades ranging from 1 to 12. Many of the students were completely bed-ridden but, according to the school report, made excellent progress. The patients follow correspondence courses from the Department of Education and on attending regular school classes after their discharge from hospital, are usually more advanced and have a better foundation.

Volunteer teachers, handicraft workers, Scout and Guide leaders, sewing groups and other interested persons continued their efforts at hospital during 1951 as they have for many years.

Education Club  
Meets

SEGEWICK—Members of Sedgewick and Central High School staffs joined colleagues from Lougheed, Killam, Strome, Daysland, A.liante, Forestburg, Heisler and several rural schools at a recent regular meeting of the Killam Inspectorate Education Club, held in Killam.

Program included discussion of results of a mid-year spelling survey test administered throughout the inspectorate during the winter, and reports on a proposed new spelling text-book series. Attention was also devoted to the problem of securing textbooks promptly at the beginning of the school year. Under the direction of Vice-President I. C. Birdsell, the club divided into two sections for group discussion of professional problems. A colored film on plastics, entitled "The Shape of Things to Come," was also viewed. Lunch was served by the Killam teachers.

## LETTERS TO LOUISA

Dear Louisa,  
 I am a second wife and my husband is very devoted to me, but one thing worries me and this is it. In practically every room in our house there is a picture of his first wife. She evidently liked photographs and there are family groups of my husband and her here and there. It is beginning to get on my nerves having her with me every minute. When I tell him goodbye in the morning there she is looking me in the eye over his shoulder. In fact, she is always with us.

Do you think it will hurt his feelings if I put them away? He has two dear little boys that I love very much and I shouldn't like to estrange them. What do you think about this?

L. B. M.

Answer:

Why not have a general house-cleaning—take down the pictures and put most of them away. Re-hang the ones the children feel the most sentiment about either in their rooms or in the least frequented places in the house.

I don't think that a husband can forget a wife he loved very much but that is no reason for him to keep throwing up the evidence of his first love to his second wife. It would have been more considerate if your husband had put away some of these photographs before he brought you home.

LOUISA.

Dear Louisa,

My neighbor moved here about a year ago and we came to be very close friends. But since her husband got a promotion, she has

been getting invited to the homes of wealthier people than we are.

Now when we are alone, she is just the same but when I meet her with some of her new friends, she hardly sees me. This has hurt me very much because I thought she was sincere. My husband advises me to drop her altogether.

D. M.

Answer:

If you are sure that she was intentionally ignoring you when in other company, I should certainly let her go her own way, but be sure of this before you make up your mind.

These fair weather friends are not real friends. They are selfish people who are interested only in themselves and in someone who can serve their purposes best.

LOUISA.

## Rates And Dates For Seeding Cereals In Northern Alberta

OTTAWA—Date and rate of seeding cereals is important, particularly where frost is a hazard and moisture is limited.

At the experimental sub-station, Fort Vermilion, Alta., spring wheat varieties were seeded at five different dates; the first as early as possible—generally the first week in May—and the other at weekly intervals thereafter. Over a two-year period, reports W. O. Klatt, the first seeding significantly out-yielded all others for all varieties. More tillering and longer heads were characteristics of the grain from the early seeding. The fourth and fifth seedings were relatively low in yield and frost damage was evident.

Results from tests on rates of seeding show the optimum rate for wheat to be 1 to 1½ bushels an acre; barley, 1½ to 2½ bushels; and oats, 2 to 3 bushels. Lighter rates resulted in lower yields and weed infestation. Though heavy seeding seldom reduced the yield, there is a definite limit beyond which it will fail to increase it. An increase in rate of seeding beyond the optimum range of wheat and barley resulted in a reduction of tillering, length of head and number of kernels per head.

## Oops!

OTTAWA, Ont.—A truck backed up to the wrong window here and emptied five tons of coal into a basement beauty shop owned by E. J. Benoit. There were no customers in the shop at the time. Hector Boudeau, truck driver, said he thought the window opened into a coal bin.

## \$1 for EMBARRASSING MOMENTS

The Editor will pay \$1.00 for every item published on "The Most Embarrassing Moment of My Life." To qualify, items must be true, personal incidents. Address "Embarrassing Moments", P.O. Box 4365, South Edmonton.

I was milking the cows, when I heard the barn door being softly pushed open. Thinking it was my friend who came every night to help me and, being unable to see him in the oncoming dusk, I thought he was trying to creep up and scare me, so I boldly and loudly said, "Don't try to scare me, you dope." Was I ever embarrassed when a total stranger walked in the door!

ROY BLACKBURN.

Clyde, Alta.

When I was 15 years old my brother, in teasing me, would hide and jump out to frighten me. One day I came home to find no one around but, hearing footsteps, suspected my brother of hiding behind the door. I grabbed a towel, and was ready to scare the living daylights out of him. When the door opened I flung the towel in his face, screamed and made to scare him as much as I could. Imagine my embarrassment when I discovered it wasn't my brother, but an elderly neighbor man who stood in the doorway in front of me!

MRS. G. RAYMOND.

Keephills.

I was a bachelor homesteader and made a "coffee cake" according, as I saw it, to instructions in the cook book and was quite well pleased with the results. Until, that is, two neighboring women settlers called in for tea, took one bite of my prized cake and then laid it down, each with a wry smile on her face. When I tasted it I found I had used ground coffee instead of liquid coffee. It was a most embarrassing moment for me.

**THE EXECUTIVE COUNCIL OF ALBERTA**—The above group of men carry the initial responsibility of the important job of government in Alberta. In the centre of the picture, at the head of the council table is Hon. E. C. Manning, Premier and Provincial Treasurer. On Mr. Manning's right, to the left of the picture, are shown, from left to right: Hon. D. A. Ure, Minister of Agriculture; Hon. Dr. John L. Robinson

(Industries and Labor); Hon. N. E. Tanner (Mines and Minerals, Lands and Forests); Hon. Lucien Maynard (Attorney-General); Hon. Dr. W. W. Cross (Health and Welfare). On the premier's left, to the right of the picture, shown from left to right are: Hon. A. J. Hooke (Economic Affairs); Hon. D. Bruce MacMillan (Public Works); Hon. C. E. Gerhart (Municipal Affairs, Provincial Secretary and Civil Defence); Hon. Ivan Casey (Education); and Hon. Gordon Taylor (Highways and Telephones).

## Seed Treatment Ups Germination and Crop Yields

How seed germination may be improved, by treatment with a mercuric fungicide was strikingly illustrated last year in tests at privately operated experimental plots at Birtle, Manitoba. Not only was germination nearly doubled but yield was increased by nearly one-half. The experiments were conducted on a plot operated by Leyman (Canada) Limited for purposes of testing the company's products. In the trials untreated flax seed germinated only

43 per cent. The same seed treated with Leytosan dust germinated 73 per cent and yielded 42 per cent higher than the untreated seed.

Some of the seed used was damaged in threshing. How this kind of damage occurs and effects of it were stressed at the recent annual convention of the Manitoba branch of the Canadian Seed Growers' Association in Winnipeg by Dr. H. A. H. Wallace of the Dominion Laboratory of Plant Pathology.

In barley, particularly the malting varieties, where threshing damage may be heavy and seriously impairs the grain for malting purposes, Dr. Wallace illustrated with slides how the soil fungi enters the cracks or contacts the peeled surface of the kernel, attacks the young seedling, causes stunting of the plant and often prevents reproduction entirely. It was also demonstrated how seed treated with Standard seed dressings improved the yield in some soils as much as 50 per cent.

In flax the damage may be even greater from a seed standpoint. Cracks caused by threshing in flax are very minute, often capable of detection only with a microscope. Small as they may be micro-organisms of the soil enter these cracks and seriously impair germination.

In the year 1951, Canada counted more than 2,500,000 automobiles on the road, including 600,000 trucks.

## Cattlemen Should Report Disease Signs At Once

Hon. D. A. Ure, Alberta Minister of Agriculture said last week that any owner of cattle who may suspect foot and mouth disease in his herd should report to the authorities immediately. The report may be made to the nearest Health of Animals Division inspector, local veterinarian. Veterinary Services Branch of the Alberta Department of Agriculture, Edmonton, or to the nearest district agriculturist.

Under no circumstances should an owner call his neighbours over to see a suspected case, warns Dr. E. E. Ballantyne, Director of Veterinary Services. Nor should he bring in his car a head, tongue, or other part of the suspected animal to the Provincial Veterinary Laboratory. All inspections must be made on the owner's farm.

If the symptoms warrant, material will be taken to a specially trained inspector to be forwarded to the Animal Diseases Research Laboratory, Hull, Quebec. No part of a suspected animal must be removed from the farm except under such authority. It must be remembered that foot and mouth disease will infect all animals in a herd and not just one or two, says Dr. Ballantyne.

## Heavy Traffic Banned

The Municipal District of Strathcona, No. 83, have placed a ban on all truck and tractor traffic on the municipal roads, effective 7 o'clock a.m. Tuesday, March 25, 1952.

School buses, ½-ton trucks, unloaded, and milk trucks with half loads are exempt from ban.

## Parking Problem Solved For Autoists Buying License Plates In Edmonton

In view of the inconvenience to the public in former years, arrangements have been made this year in Edmonton to provide additional facilities for the purchase of passenger car license plates by motorists. This has been done by arranging for extra wickets for distribution at the main Office of the Motor Vehicle Branch in the Administration Building and by arranging for a distribution centre located in the Junior Building which is immediately west of the main entrance to the grandstand in the Edmonton Exhibition grounds.

Ample parking space is provided at this new location and the Department proposes to arrange to have several issuers located in this building to accommodate those motorists who wish to avail themselves of the facilities there. Both offices will operate the regular Government hours, that is, from 8:30 a.m. to 4:30 p.m.

It is hoped by the Department

that many Edmonton and district residents will purchase their plates from the issuers located in the Junior Building in the Exhibition Grounds and so relieve the congestion which ordinarily occurs in the Administration Building.

It is hoped that in view of the additional facilities that it will be possible for all motorists to obtain their 1952 plates, without too much inconvenience or waiting in line, by April 15.

## "Election Year" Budget Provides More Funds for Welfare, Health, Education, Roads

A record budget of more than \$16,000,000 with no new taxation and some increases in grants to public benefits, with a slight amendment for municipal assistance was brought in by Premier Manning last week in the Legislature. All political observers agree it is an "election year" budget and portends an appeal to the voters sometime this summer for a return of the Social Credit party to another term in power.

Of interest to municipal districts and school boards is the news, gleaned from the Premier's budget speech, that the province will "take care" of 50 per cent of the total approved capital funds required for construction of schools compared with 30 per cent in the 1951-52 fiscal year and also will assist municipalities by giving them a greater share of gasoline-tax receipts.

The province will increase by 10 per cent, from 40 to 50 per cent, the portion of the gasoline tax allocated to the municipal assistance fund, boosting to an estimated \$5,991,151 the funds to be distributed to municipalities in the year.

A new formula for distributing this money is being worked out on the basis that the largest grants will go to the municipalities with the greatest need, the Premier said. But all municipalities will get something.

### SPECIAL GRANTS

In 1952-53 the province will distribute \$1,198,230 in special grants where there is need. The balance of \$4,792,921 will be distributed under the formula already established in the act for the payment of unconditional grants and ex-reduction subsidies. Another change will authorize

municipalities to increase their mill rate and still be eligible for the tax-reduction subsidy.

The basic mill rate, set at the highest rate a municipality has levied since 1949, will be tied to the national cost-of-living index.

"The actual increase in the national cost-of-living index during the last calendar year was 10.78 per cent," the Premier said.

### TAXPAYERS TO BENEFIT

"Under the amendment proposed, any municipality that does not increase its basic mill rate more than 10.78 per cent above the rate established for the year 1951 will be eligible for the tax-reduction subsidy authorized by the (Municipal Assistance) Act provided the municipality passes the benefit on to the individual taxpayer."

Explaining this formula to reporters outside the chamber, Premier Manning said that if the basic rate last year was 50 mills, a municipality could now increase it to roughly 55 mills. All the municipality would actually levy would be 52 mills. The province would reimburse the difference. The whole benefit would go to the individual taxpayer, Premier Manning emphasized.

### LEVEL LAND NEWS BRIEFS

Mr. and Mrs. Albert Heuther and Mrs. Emil Gramms spent the week-end at Union College, visiting with their children and friends.

Most of the Level Land people attended the funeral of Fred Braunkuger, who at one time was a res-

ident of this district. Jacob Braunkuger and Mrs. Jacob Wagner of Salem, Oregon, who had also been Level Land residents, spent a few days in Alberta, while attending the funeral of their brother.

Mr. and Mrs. August Hepper of Chilliwack, B.C., were here to attend the funeral of Mrs. Hepper's brother, Mr. and Mrs. Hepper used to live in this district, on the farm of Mr. and Mrs. Henry Stern.

The Sell girls of Calgary and also of Kathryn visited with their mother and brother of this district over the week-end.

Pastor and Mrs. A. Blair had their sister out Saturday night. Ed Foster of Carbon, and Mr. and Miss Newfield has been a patient

in the Holy Cross Hospital for some time. This was the first time she has been able to leave the hospital for any length of time. They had a wheel-chair for her while in the church.

A donation, amounting to \$375, was received last week by the Red Cross. The money is to go toward the Crippled Children's Hospital. The giver prefers to remain anonymous.

Sunday dinner guests at the home of Mr. and Mrs. Sam Lelske were Mr. and Mrs. Otto Schielke of Drumheller, Mr. and Mrs. Adam Velhed of Beiseker, Mr. and Mrs. Ed Foster of Carbon, and Mr. and Mrs. Harry Long of Irricana.

### SCHOOL HIGHLIGHTS

BEISEKER—A trip to Calgary made by the High School hockey team and numerous spectators on Tuesday night, March 25, was a big success. Beiseker boys were faithful throughout the game, but lost to Carlsland 7-3. The cup once again was won by Carlsland team. The scores for Beiseker were made by Harvey Olsen, Roger Meidenger and Mattie Schmaltz. All appreciated the kindness of William Terne in providing transportation and refereeing the game. Lorne Bunyan, the coach, and Mike Stinn, former referee, also accompanied the boys. Other schools playing hockey in the Stampede Corral were Kathryn and Three Hills. Score 6-3 in favour of Kathryn.

Grades ten and eleven wish grades nine and twelve the best of luck in their Easter exams, which begin March 31.

### NOTICE

## Preparation of Assessment Roll 1952

### Village of Beiseker

NOTICE is hereby given that the assessment of the previous year has been adopted under the provisions of The Assessment Act, and that the assessment roll of the said municipality has been duly prepared, and that if any person thinks that any property has been wrongfully assessed, or assessed too high, or too low, or that his name or the name of any other person has been wrongfully entered upon or omitted from the roll, he may at any time prior to the 30th day of April, notify the secretary-treasurer in writing of the particulars and grounds of his complaint.

DATED at Beiseker, this first day of April, 1952.

L. W. BUNYAN,  
Secretary-Treasurer.

## EDMONTON DOCTOR CURES CHILD'S CLUB FOOT CONDITION

An Edmonton surgeon whose name is being held by request, and the Associated Canadian Travelers Crippled Children's Fund combined in providing surgery and hospitalization which resulted in the complete cure of a club foot condition for little Riel Heureux, of Jossard, Alberta, during the past year, according to information received in a letter from his mother at Easter Seal Campaign Headquarters.

The Edmonton doctor performed the necessary surgery without charge, while the local ACT paid all hospital bills and transportation costs from their Easter Seal funds.

Writing to the Easter Seal Committee, Mrs. E. L. Heureux stated "his foot is completely normal today, thanks to the work of the doctor and the ACT who paid the hospital bills for the ten months that he was in the University hospital; for this I shall forever be grateful."

The Kiwanis-ACT 1952 Easter Seal campaign, which runs to April 13, will enable these clubs to provide treatment for more children with physical handicaps.

Children from all parts of the province will be helped through Easter Seal funds. The response during the first four days has been very gratifying, the committee told the Sun today, but the demands on the funds this year are greater than ever before.

Average weekly wages in manufacturing in Canada rose from \$45.75 at Nov. 1, 1950, to \$51.62 at Nov. 1, 1951, while average hours worked dropped from 43 to 41.8.

### PROGRESS REPORT

— OF —

## NEW DEVON PETROLEUMS Limited

New Devon Petroleum Ltd., incorporated last November, commenced a drilling program on three pieces of property. These plans have now been completed, and New Devon No. 1 was put on production on the first of March. Since this initial program was announced, New Devon have acquired an interest in the following properties:

### ● North Calmar Area . . .

A carried interest consisting of 12% deferred net royalty in L.S.D.'s 3, 4, 5 and 6, of 35-49-27-W4th on which Royal Arch Oil Ltd. has announced that drilling will start immediately. New Devon No. 1 is on production on L.S.D. 15; Texaco-Pearson No. 1 is producing from L.S.D. 9 and New Devon plans to drill L.S.D. 10, all in the same section.

### ● North Camrose Area . . .

35% interest in a development agreement covering L.S.D.'s 3, 4, 5, 6, 7 and 8 of 15-47-20-W4th on which Skyline - New Devon - Mic Mac - Camrose No. 1 is presently drilling.

### ● South Calmar Area . . .

10% interest in the following wells, which will convert to 5% net royalty after recovery of drilling costs:

**Mic Mac No. 5—on production**  
**No. 6—on production**  
**No. 7—drilling**  
**No. 8 location**

### ● St. Paul Area . . .

10% interest in Crown Reservation No. 1705 covering approximately 80,000 acres about five miles S.E. from the Kileam Cork discovery.

To date New Devon Petroleum Ltd. has an interest in four producing wells and has in addition thereto an interest in two wells currently drilling and in two further locations which have been staked.

This report is for the information of the Shareholders only, and does not constitute an invitation to purchase shares. The original issue has been fully subscribed.

**NEW DEVON PETROLEUMS Limited**
